

January 2022

B2B Economic Outlook - UK

“2021 has demonstrated a rapid recovery from the record fall in GDP in 2020 – in sharp contrast to the elongated flat recovery following the last recession. However, the huge uncertainties surrounding the outbreak of Omicron now dominate expectations for the economy. While the government clearly remains resistant to another ...

November 2021

Medical Equipment - UK

“As new technologies and data analytics capabilities create opportunities for companies in the surgical, diagnostic and healthcare monitoring sectors, these companies must work with partners that bring knowledge and capabilities beyond the traditional medical equipment and supplies market.”

– Lewis Cone, Senior B2B Analyst

August 2021

Adult Social Care - UK

“With the demand on services only expected to increase, councils need to embrace more innovative solutions to mitigate the financial risk this issue presents. However, the continued delay in the publication of the Green Paper is a sign of the ongoing lack of consensus and thinking that should be being ...

July 2021

Dentistry - UK

“As part of the ongoing response to the pandemic, the interruption to dental service provision has had, and will continue to have, an impact on the income and sustainability of practices, dental laboratories, the dental supply sector, self-employed dental care professionals and support staff. Whilst the risk of widespread insolvency ...

June 2021

Private Healthcare - UK

“With the COVID-19 pandemic having already led to thousands of cancer screenings and diagnoses being postponed or missed as well as fewer people visiting their GP with symptoms and concerns, it is vital that the private healthcare sector steps up its involvement in these areas. The record high backlog in ...

B2B Economic Outlook - UK

“Latest economic data indicates a rebound in the UK economy, bolstered by the easing of COVID-19 restrictions and the rapid vaccine roll-out. Businesses are also becoming more confident with a number of surveys suggesting improved expectations for economic conditions and investment intentions.

May 2021

Occupational Health - UK

“Employees have had to engage with health and wellbeing in a different way during the pandemic and this has increased awareness of the many services that are available from OH providers – remotely, digitally and in-person. Some of these services have been particularly beneficial for employees and are therefore likely ...

March 2021

B2B Economic Outlook - UK

“The tentative dates set by the government to reopen the economy over the coming months provide hope that businesses are over the worst that the pandemic has brought them financially. However, it will still take time for things to return to pre-pandemic levels with businesses likely to still need support ...
