

## June 2023

### B2B Economic Outlook - UK

“While the UK economy is now expected to narrowly avoid falling into recession in 2023, stubbornly high inflation remains of concern. The inflation rate is expected to slow in the second half of 2023, on the back of falling energy prices and the easing of global supply pressures, but it ...

## March 2023

### B2B Economic Outlook - UK

“Although the UK avoided recession at the end of 2022, growth is likely to be constrained by persistently high inflation and the cost of living crisis. The recent fall in wholesale gas prices should start to reduce bills by the end of H1 and this will somewhat improve the financial ...

## February 2023

### Civil Engineering - UK

“The government’s commitment to infrastructure spending to drive economic growth, its commitment to the levelling-up agenda, the need for decarbonisation and infrastructure resilience in the face of climate change and the progression towards the Net Zero by 2050 target should ensure sustained growth in the civil engineering sector over the ...

### B2B Economic Outlook - UK

“The UK, along with other Western economies, is grappling with a perfect storm caused by rocketing fuel prices following the conflict in Ukraine and the inflationary consequences of the post-COVID boom in demand. The sharp rise in inflation seen in 2022 has stimulated interest rate rises which in turn contribute ...
